

NOTICE OF PUBLIC INFORMATION CENTRE

Pressure District 2/3 Water Storage Tank Municipal Class Environmental Assessment

The Study

The City of Brantford is currently completing a Municipal Class Environmental Assessment study for siting a new water storage tank to service existing and future residents in the City's Pressure District 2/3. The need for additional storage in PD 2/3 was identified in the recent City of Brantford Water, Wastewater and Stormwater Master Servicing Plan Update.

The study is evaluating various alternatives for siting a new water storage tank to address the need for additional storage within the distribution system, in addition to associated transmission watermains and modifications to existing pumping stations to meet service area demands.

The Process

The study is being conducted in accordance with Schedule 'B' requirements of the Municipal Engineers Association "Municipal Class Environmental Assessment" manual (October 2000, as recently amended in 2015) which is approved under the Ontario Environmental Assessment Act.

Public Information Centre

The City invites you to attend our in-person Public Information Centre:

Date and Time: Wednesday May 18, 2022 - 6:00 PM to 8:00 PM (Drop-in-Centre Format)

Location: Walter Gretzky Municipal Golf Course (320 Balmoral Drive, Brantford) in the Clubhouse

The intent of the Public Information Centre is to introduce and build awareness of the project. This includes sharing the study findings and evaluation of potential sites for a new water storage tank, including the preferred recommended site. The potential sites are located on Powerline Road and King George Road. Attendees are welcome to drop-in between the hours specified above to view project materials and provide feedback. Representatives from the study team will be available to discuss the project.

The Public Information Centre material will also be available for viewing on the project website following the event: [**brantford.ca/WaterStorageTankEA**](http://brantford.ca/WaterStorageTankEA)

If you have any questions or comments regarding this study or wish to be added to the study mailing list, please contact either one of the project team representatives below:
