## NOTICE

## NOTICE OF PUBLIC INFORMATION CENTRE

The City of Brantford is preparing a Heritage Register, which is an official record of all designated heritage properties in the City in accordance with the Ontario Heritage Act. The Heritage Register can also be used to identify other properties that have unique heritage value but are not designated properties, commonly known as "listed" properties. The Heritage Register will provide information about the design and history of designated and listed properties that can be accessed by the public. The Heritage Register will also be an important tool consulted by the City of Brantford when reviewing development proposals and demolition applications that may impact heritage resources.

As part of the project, we are identifying properties with unique buildings that may be included on the Heritage Register as non-designated, listed properties. These special buildings include those that are good examples of a style of architecture, demonstrate the rare use of a style, construction method, or building material, have an early date of construction or are associated with important people, businesses, or development themes in Brantford's history.

Please join us for a Public Information Centre to learn more about the Heritage Register Project:

**Monday, November 4, 2019**

**6:00 p.m. to 8:00 p.m.**

**Presentation at 6:30 p.m.**

**T.B. Costain/SC Johnson Community Centre

## Municipal Class Environmental Assessment Mohawk Lake and Mohawk Canal Cleanup and Rehabilitation Project Functional Master Drainage and Restoration Study

The City of Brantford has initiated the Mohawk Lake and Mohawk Canal Cleanup and Rehabilitation Project with financial support from the Federal Government. This Functional Master Drainage and Restoration Study will identify rehabilitation measures needed to address accumulated sediments and provide opportunities/recommendations to improve the environmental quality of Mohawk Lake and Mohawk Canal, and protect and enhance its future in the community.

The Study is being carried out in accordance with the Ontario Municipal Class Environmental Assessment (Class EA; Schedule "B") process, as outlined in the Municipal Engineers Association's Municipal Class Environmental Assessment. This is an approved process under the Ontario Environmental Assessment Act. Under the Class EA, the City has commenced the investigation of how to improve the environmental quality in the lake and canal by managing stormwater runoff, providing better habitat for fish and wildlife and enhanced recreational opportunities.

Engagement with the public is considered a key part of any Class EA. As part of the study, two Public Information Centres (PICs) are planned to allow the public and interested stakeholders to learn more about the Study and provide input and comments to inform Study planning. The first PIC was held June 5, 2019. The purpose of the second PIC is to share information with interested community members, to inform and identify priorities

and interests that should be considered in project planning and execution. The second PIC will be held:

**Wednesday, October 23, 2019**

**5:00 pm to 7:00 pm**

**Mohawk Park Pavilion, 51 Lynnwood Dr., Brantford**

Representatives from the City and its consultant team will be present at the PIC to answer questions and discuss next steps. The meeting will be an open house format with no formal presentation.

Information relating to the Study and consultation process will also be posted on the City of Brantford's website, [brantford.ca/MohawkLakeCanalEA](http://brantford.ca/MohawkLakeCanalEA). To submit a comment or question, or receive additional information related to the Class EA, or if you have accessibility requirements to participate in this Study, please contact one of the representatives below:
