PUBLIC NOTICE

Household Curbside Pick Up

Residents can set out up to **five containers or bags of garbage** each week. Each container must weigh less than 25 kg (55 lbs). Your garbage must be to the curb by 7:00 a.m. on your scheduled collection day, but not before 7:00 p.m. the night before.

Bulk item pick up

Residents **cannot** put furniture, appliances or other bulk items out for collection with their regular household garbage. A free pick up service is available once between the months of January and June, and once between the months of July and December.

Visit brantford.ca/BulkPickup or phone 519-759-4150 to schedule your pick up.

PUBLIC NOTICE

NOTICE OF PUBLIC INFORMATION CENTRE #3

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT FOR COLBORNE STREET (EAST) SLOPE STABILIZATION

THE STUDY

The City of Brantford has initiated a Municipal Class Environmental Assessment (Class EA) Schedule 'C' for the Colborne Street (East) Slope Stabilization. The study area encompasses approximately 1200 metres along Colborne Street between Linden Avenue and Johnson Road and includes the embankment extending to the Grand River. Ecosystem Recovery Inc. has been retained by the City of Brantford to complete the study.

The study is intended to identify and evaluate alternatives, as well as to develop concepts to improve, manage or mitigate slope stability concerns in the study area. The findings of this project may also result in amendments to the GRCA's regulated area mapping of Ontario Regulation 150/06 made under the Conservation Authorities Act.

THE PROCESS

The study is being conducted in compliance with Schedule 'C' requirements of the Municipal Engineers Association "Municipal Class Environmental Assessment," (October 2000, as amended 2007 & 2011) as approved under the Ontario Environmental Assessment Act. A key component of the study will be consultation with interested stakeholders (public, landowners and agencies). Two (2) Public Information Centres (PICs) have been held to provide interested parties with an opportunity to review and discuss issues related to the project. The third and final PIC is to be held as follows:

Wednesday, November 13, 2019
7:00 p.m. to 8:30 p.m.
St. Peter School
175 Glenwood Drive, Brantford
Open House Format

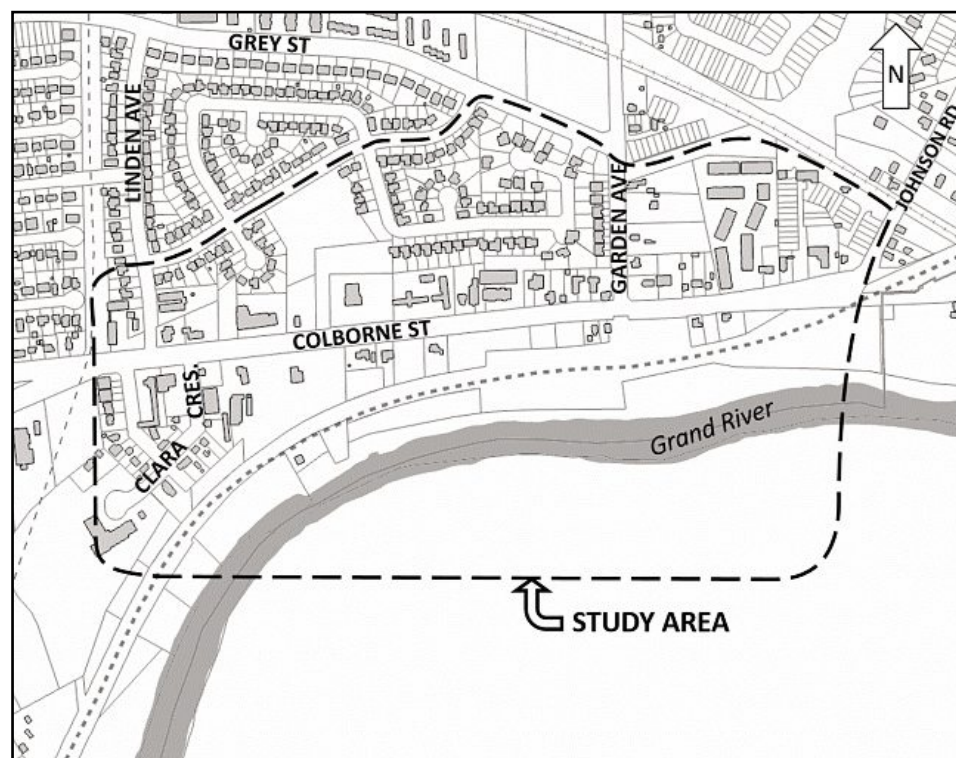

This third PIC will review the Environmental Assessment process, provide a complete characterization of the existing conditions of the study area, summarize the alternative solution selected, and present the preferred alternative design to address the slope stability concerns along Colborne Street (East).

Upon completion of the study, an Environmental Study Report will be prepared and posted for public review and comment. The document will detail the planning process and provide the preferred alternative. A Notice of Completion will be issued at that stage.

PUBLIC COMMENT INVITED

The study team is interested in hearing any comments or concerns that you may have about this study. Comments and information regarding the study are being collected until **November 29, 2019** to assist the City of Brantford in meeting the requirements of

the Environmental Assessment Act. This material will be maintained on file for use during the project and may be included in project documentation. With the exception of personal information, all comments will become part of the public record.

If you have any comments or questions regarding this study, please contact either of the following:
