

NOTICE

City of Brantford Community Grants Program Applications now open until March 31, 2019

The City of Brantford is proud to work with local non-profit organizations to help build a stronger and more vibrant community. The City of Brantford Grants Program is part of our commitment to facilitating opportunities to enhance community wellbeing through support of arts, culture, heritage, recreation, the environment and health and human services.

We are pleased to accept applications for the following Grants until **MARCH 31, 2019**:

• **Operational Grants**

To facilitate self-sufficiency of community non-profit groups and programs

• **Travel Grant**

To represent the City at the municipal, provincial or national level

• **Start-Up and Capital Grant**

To enhance services and programs that benefit the community in the areas of social, health, recreation, cultural, or economic development

• **City Services Special Event Grant**

To support local-based non-profit organizations; events and activities build a stronger more vibrant community by assisting recipients with City related fees

• **Emergency Funding Grant**

To help alleviate an emergency situation faced by non-profit organizations

Administered by the Brant Community Foundation (BCF), program grants are distributed to qualifying organizations based on specific criteria. Non-profit applicants who are interested in learning more are encouraged to visit the City's website for more information at brantford.ca/CommunityGrants or contact the Brant Community Foundation at 519-756-2499 or info@brantcf.ca.

PUBLIC MEETING

NOTICE OF PUBLIC INFORMATION CENTRE MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT FOR THE COLBORNE STREET (EAST) SLOPE STABILIZATION

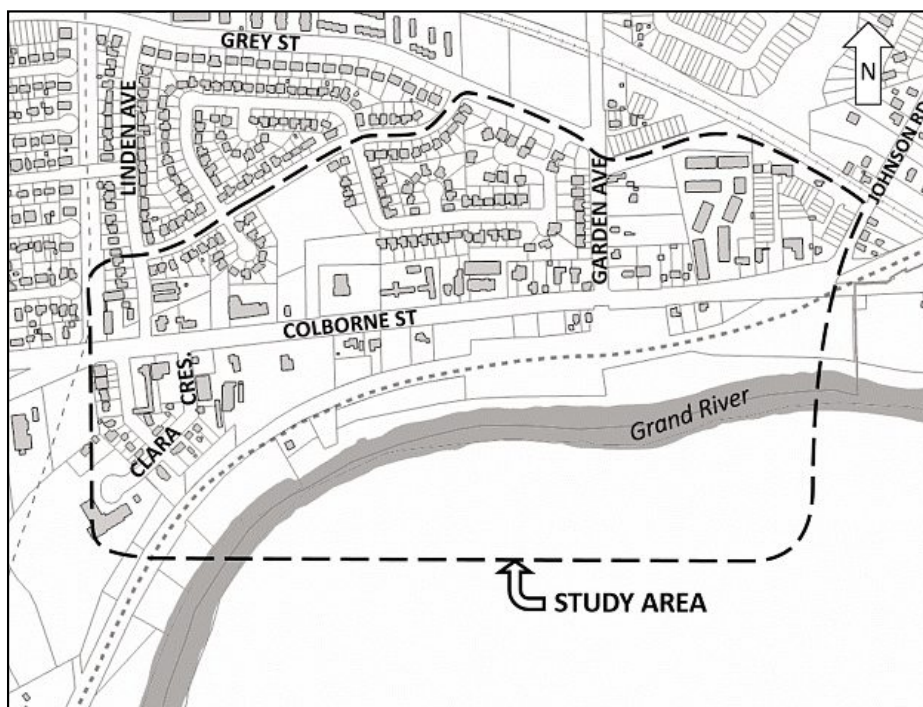

THE STUDY

The City of Brantford is conducting a Municipal Class Environmental Assessment (EA) Schedule 'C' for a section of Colborne Street. The study area encompasses approximately 1200 metres along Colborne Street between Linden Avenue and Johnson Road and includes the embankment extending to the Grand River. Ecosystem Recovery Inc. has been retained by the City of Brantford to complete the study.

The study is intended to identify and evaluate alternatives, as well as to develop concepts to improve, manage or mitigate slope stability concerns in the study area. The findings of this project may also result in amendments to the GRCA's regulated area mapping of Ontario Regulation 150/06 made under the Conservation Authorities Act. As well, any new mapping to identify the extent of the natural hazard area may also be reflected in the new Official Plan for the City of Brantford as well as future updates to the Zoning By-law.

THE PROCESS

The study is being conducted in compliance with Schedule 'C' requirements of the Municipal Engineers Association "Municipal Class Environmental Assessment," (2011) as approved under the Ontario Environmental Assessment Act. A key component of the study is consultation with interested stakeholders (public, landowners and agencies). The first Public Information Centre (PIC) was held on September 13, 2018 and provided an overview of the EA process and background information. A second PIC will be held to present the evaluation of the alternatives and discuss the preferred solution, as follows:

Tuesday, March 12, 2019
5:00 p.m. to 7:00 p.m. (presentation at 6:00 p.m.)
Woodman Park Community Centre
491 Grey St., Brantford

A third PIC will be held prior to the release of the Environmental Study Report (ESR), and will present the selected alternative solution to the public. The ESR will be prepared upon completion of the study and posted for public review and comment. The document will detail the planning process and provide the preferred alternative. A Notice of Completion will be issued at that stage.

PUBLIC COMMENT INVITED

We are interested in hearing any comments or concerns that you may have about this study. Comments and information regarding the study are being collected to assist the City of Brantford in meeting the requirements of the Environmental Assessment Act. This material will be maintained on file for use during the project and may be included in project documentation. With the exception of personal information, all comments will become part of the public record.

If you have any comments or questions regarding this study, please contact either of the following:

Jeff Prince, P. Eng
Senior Project Manager
Ecosystem Recovery Inc.
80 Courtland Ave East, Unit 2
Kitchener, Ontario N2G 2T8

NOTICE

NOTICE OF PUBLIC INFORMATION CENTRE NORTH PARK STREET (DUNDAS STREET TO WADDINGTON STREET) ROAD DIET PROJECT

North Park Street was re-configured in 2018 based on public input to reduce speeding and to implement cycling lanes identified in the City's Transportation Master Plan. Revisions to the pavement markings are being proposed based on public feedback and staff observations. The public is invited to attend a Public Information Centre (PIC) to share before and after results of the Road Diet and to provide input on the proposed revisions ahead of final paving. The PIC has been arranged for:

Thursday, March 21, 2019
4:00 p.m. to 6:00 p.m.
North Park Collegiate and Vocational School,
280 North Park Street, Brantford, Cafeteria

If you have any questions or comments regarding road configurations, please contact Rob Smith, C.E.T., Transportation Technologist at 519-759-4150 or email to RSmith@brantford.ca.

For any other inquiries regarding North Park Street including final paving and the PIC, please contact James Clarke, C.E.T., Design Technologist at 519-759-4150 or email to ClarkeJa@brantford.ca.
