The proposed Downtown CIP includes a Property Tax Increment-Based Grant to provide property owners with a financial incentive to help them redevelop their properties within the proposed Project Area. Eligible redevelopment projects would include new buildings or substantial additions for residential uses or mixed uses (with both residential and commercial units) that will result in an increase in the assessed value of the property. It is envisioned that these redevelopment projects will provide for a variety of types and tenures of residential units, support existing and new commercial and institutional uses, and contribute to a complete community in the heart of the City.
