

## NOTICE OF COMPLETION

### Pressure District 2/3 Water Storage Tank Municipal Class Environmental Assessment

#### The Study

The City of Brantford has completed a Municipal Class Environmental Assessment study for siting a new water storage tank to service existing and future residents in the City's Pressure District 2/3. The need for additional storage in PD 2/3 was identified in the recent City of Brantford Water, Wastewater and Stormwater Master Servicing Plan Update.

The study has evaluated various alternatives for siting a new water storage tank to address the need for additional storage within the distribution system, in addition to associated transmission watermains and modifications to existing pumping stations to meet service area demands. The preferred solution is to site a new elevated water storage tank on King George Road with accommodation for future additional storage, pending growth.

#### Preferred Site for New Water Storage Tank

#### The Process

The study has been conducted in accordance with Schedule 'B' requirements of the Municipal Engineers Association "Municipal Class Environmental Assessment" manual (October 2000, as amended in 2015) which is approved under the Ontario Environmental Assessment Act.

#### How to Review the Project File

The Project File documenting the planning process is available for public review and comment for a period of 30 calendar days starting on **March 8, 2023** and ending on **April 7, 2023**. To facilitate public review of this document, the Project File report is

available on the City's website: [brantford.ca/WaterStorageTankEA](http://brantford.ca/WaterStorageTankEA). All comments and concerns should be sent directly to the Project Managers:

In addition, a Section 16 Order request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e., requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name.

Requests should specify what kind of order is being requested (request for conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the Ministry is able to efficiently begin reviewing the request.

The request should be sent in writing or by email by **April 7, 2023** to both contacts below:

**Minister of the Environment, Conservation and Parks**
