

CITY OF  
**BRANTFORD**

2025

CALENDAR

## Welcome to your 2025 Calendar

We are delighted to share this annual calendar with our vibrant community. Our dedicated team works tirelessly to provide over two hundred essential programs and services, many of which you'll find highlighted within these pages.

This calendar is your handy guide to information on services like household hazardous waste collection events, yard waste disposal, green bin, garbage and recycling schedules, summer watering restrictions, and snow removal. It's designed to keep you informed about all the great services the City offers.

Brantford is home to over 70 kilometres of beautiful natural trails, many following the scenic Grand River, a designated Canadian Heritage River. Our city also boasts over 60 playgrounds, more than 1000 acres of parkland, multiple heritage sites and museums, swimming pools, splash pads, and many community events. For a full list of upcoming events, visit **[brantford.ca/CommunityEvents](https://brantford.ca/CommunityEvents)**.

Have an idea to make Brantford an even better place to live, work, and play? Explore **[LetsTalkBrantford.ca](https://brantford.ca/LetsTalkBrantford)**, an interactive platform where you can learn about important City initiatives, share your feedback, and engage with the community.

If you have any questions or need more information about any of the City's programs and services, don't hesitate to call us at **519-759-4150**. Our friendly Customer Service Representatives are here to help and guide you to the right resources.

From all of us at the City of Brantford, we extend our warmest wishes for a healthy, happy, and prosperous 2025!

### Calendar Holidays

Our calendar includes all Federal and Provincial statutory holidays that impact City programs and services, as well as religious holidays that we believe the community would be interested in. If you think a holiday is missing from this calendar, please let us know at **[communications@brantford.ca](mailto:communications@brantford.ca)** so we can include it in the future.

# How we keep the city moving

What residents can expect during a snow event

## Before the snow comes

In advance of a storm, City staff monitor weather conditions closely, pre-treat and anti-ice City roads, and communicate to residents that a snow event is expected using various City platforms. At this time, residents are asked to keep their vehicles and parked cars off roadways to make room for snow clearing crews.

## While the snow is falling

The City of Brantford is responsible for maintaining and clearing nearly 1,400 lane kilometres of roadways. During a winter event, the City's Operational Services crews plow and salt routes in priority order. Visit [Brantford.ca/WinterControl](https://brantford.ca/WinterControl) for more information.

## After a Snowfall

Once a snow event ends, City crews focus on complete snow removal in the Business Improvement Area (BIA) downtown, as well as clearing sidewalks fronting City-owned properties and bike lanes. Clean-up of snow and ice build-up on major routes continues and once the snow stops falling, the City activates a 24 hour clock whereby service requests to Operational Services are temporarily paused while crews focus on clean-up efforts. Once a snow free 24-hour period transpires, Operational Services staff resume responding to individual concerns and service requests in priority order.

[Brantford.ca/WinterControl](https://brantford.ca/WinterControl)

## While the snow is falling

The City of Brantford is responsible for maintaining and clearing nearly 1,400 lane kilometres of roadways. During a winter event, the City's Operational Services crews plow and salt routes in priority order as outlined below:

### Arterial Roads (Red Routes)

Clearing starts at 5 cm, 6 hours after a snow event.

### Collector Roads (Blue Routes)

Clearing starts at 8 cm, 12 hours after a snow event.

### Local Roads (Green Routes)

Clearing starts at 10 cm, 24 hours after a snow event.

### Windrow Clearing

Clearing starts at 10 cm, up to 48 hours after a snow event.

## Waterwise Landscapes

To reduce summer water use, the City encourages residents to embrace waterwise landscaping.

This type of landscaping maximizes water absorption to help gardens withstand both wet and dry weather conditions. The use of specific plants, watering techniques and permeable

hardscapes can be used to create a variety of beautiful landscapes that require less water, less money and less maintenance than traditional lawns once established.

Waterwise gardens can survive almost entirely on rainwater using these planting techniques:

- Increase the ratio of plants to grass
- Use plants that are native, perennial, or drought-tolerant
- Use rain barrels where possible
- Use mulch (includes living mulch) to retain water and control weeds
