

2022 CALENDAR

Welcome to your 2022 Calendar

It is our pleasure to share the City's annual calendar with our community. The City of Brantford is made up of dedicated staff working hard to deliver the two hundred plus programs and services we provide, many of which are featured throughout the following pages.

Whether you are looking for information about waste collection, summer watering restrictions, household hazardous waste event days, or water conservation (just to name a few), this calendar will help you stay informed about the various services the City has to offer.

Have an idea to help make Brantford a better place to live, work and play? Visit **LetsTalkBrantford.ca**, our interactive online space for public engagement where you can learn about important City initiatives, share your feedback and engage with the community.

Should you have any questions, or need more information about any of the City's programs and services, we encourage you to contact our Customer Contact Centre at 519-759-4150 where our Customer Service Representatives will be pleased to answer your enquiry or direct you to the appropriate staff.

From the City of Brantford family to yours, we wish you a healthy, happy and prosperous 2022!

Waterwise Landscapes

To reduce summer water use, the City encourages residents to embrace waterwise landscaping.

This type of landscaping maximizes water absorption to help gardens withstand both wet and dry weather conditions. The use of specific plants, watering techniques and permeable

hardscapes can be used to create a variety of beautiful landscapes that require less water, less money and less maintenance than traditional lawns once established.

Waterwise gardens can survive almost entirely on rainwater using these planting techniques:

- Increase the ratio of plants to grass
- Use plants that are native, perennial, or drought-tolerant
- Use rain barrels where possible
- Use mulch (includes living mulch) to retain water and control weeds

Winter Operations Program

The City of Brantford's Winter Operations Program keeps roads and sidewalks safe and passable for pedestrians, cyclists and motorists. Even before the snow falls, our crews are hard at work to prepare and work continuously throughout and after a storm event. The City currently maintains approximately 1,000 lane kilometres of roadway. The City of Brantford plows and salts roads and bicycle lanes in priority sequence according to their Provincial Road Classification. Visit brantford.ca/Plowing for more information.

Reminder to Residents

The public is encouraged to park in driveways, garages or laneways during winter weather. On-street parking significantly impairs snowplowing efforts as crews have to weave equipment in and around parked cars. This can result in windrows (snow) left around cars after a roadway has been cleared.

Keep Our Sewer System Fat, Oil & Grease Free – Household Tips:

Where does the grease come from?

Grease is a common by-product of cooking and is found in items such as:

- Butter and margarine
- Cooking oil
- Dairy products
- Food scraps
- Lard and shortening
- Meat fats
- Sauces

What are the results of a sewer blockage from your home?

A sewer blockage caused by grease accumulation in your home's sewer pipes may result in:

- Raw sewage overflowing into your home or neighbouring homes
- Raw sewage overflowing into yards, streets, parks, and bodies of water
- Potential exposure to disease-causing organisms
- A penalty or fine under the City of Brantford's Sewer Use By-law
- An expensive and unpleasant cleanup that often must be paid for by the homeowner

What you can do to help

The easiest way to prevent household and environmental damage caused by sewer overflows and backups, is to make sure our sewer system is fat, oil, and grease free.

What you should do

- Scrape solidified grease and food scraps from plates, utensils, pots, pans and cooking areas, place the grease into a garbage bag
- Use a paper towel to wipe up grease and dispose of the paper towel in a garbage bag
- Used cooking oil should be bulked up using sawdust, or another similar absorbent material and placed in a garbage bag for disposal on your regular collection day
- Be careful when using a commercial cleaner or detergent which claims to dissolve grease, as they may only transport the problem further down the sewer system

What you shouldn't do

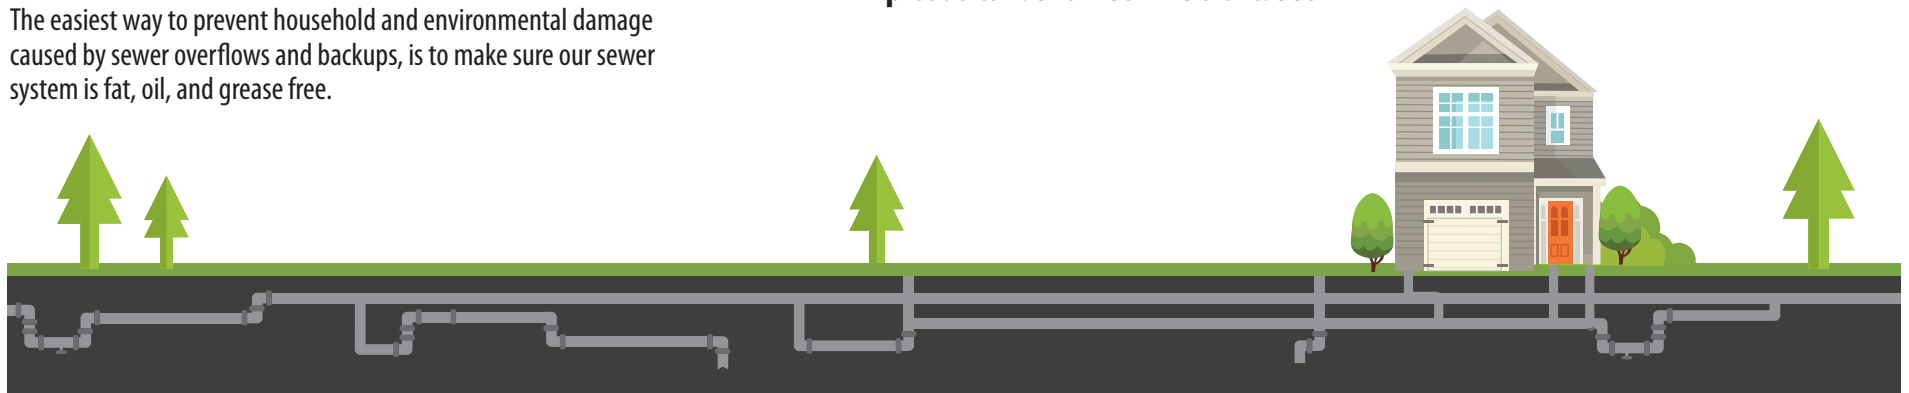

- Never pour grease down the sink drains or toilets

Not everything that goes into Brantford's sanitary sewer system will make its way to the Wastewater Treatment Plant.

Fats, oils and greases poured down the drain or flushed down the toilet can stick to your home's sewer pipe.

Over time, grease can build up and eventually block an entire pipe, surging up through sinks, floor drains and toilets. This can cause sewage backups and overflows that can cause health hazards, damage home interiors and threaten the environment.
